MEMORANDUM FOR: Chief, RQM/OIS

SUBJECT: Forced Labor Camps and Similar Installations in the European Satellites

REFERENCE: Case K-4530 -- Memorandum from RQM/OIS, dated 14 November 1956

1. ORR has only very limited capabilities for fulfillment of the requirement set forth in the referenced memorandum. The Office could supply information on the location of a high percentage of the installations in the Satellite countries. On the other hand, it does not have very much data on ground plan, structures, capacity or security provisions of the installations.

2. Since it would be necessary for the Office to canvass other parts of the Agency and other agencies in the intelligence community in order to fill the requirement, it is suggested that the requester might find it more efficient to undertake such a canvass himself.
